

For correct combination of two standard protective bands no mud nest® from these three types:

- a) standard protective band 100 cm
- b) standard protective band 52 cm
- c) standard protective band 28 cm

it is recommended to follow table no. 1

(for longer lengths it is necessary to follow table no. 2 in the second page)

TABLE no. 1

Your measurement or estimate between	Combination of two protective bands				Achieved total length
	standard band type	opening to connect (from left)	standard band type	opening to connect (from left)	
from 28 to 46 cm then: combination of band 28 with band 28	28	<i>requirement of 28 cm = 1 piece of 28 cm recess band with two installing openings</i>			28 cm
	28	2 nd	28	1 st	34 cm
	28	3 rd	28	1 st	40 cm
	28	4 th	28	1 st	46 cm
from 52 to 76 cm then: combination of band 52 with band 28	52	<i>requirement of 52 cm = 1 piece of 52 cm mural band with two installing openings</i>			52 cm
	52	6 th	28	1 st	58 cm
	52	7 th	28	1 st	64 cm
	52	8 th	28	1 st	70 cm
	52	9 th	28	1 st	76 cm
from 82 to 94 cm then: combination of band 52 with band 52	52	6 th	52	1 st	82 cm
	52	7 th	52	1 st	88 cm
	52	8 th	52	1 st	94 cm
from 100 to 124 cm then: combination of band 100 with band 28	100	<i>requirement of 100 cm = 1 piece of 100 cm mural band with two installing openings</i>			100 cm
	100	14 th	28	1 st	106 cm
	100	15 th	28	1 st	112 cm
	100	16 th	28	1 st	118 cm
	100	17 th	28	1 st	124 cm
	100	14 th	52	1 st	130 cm
from 130 to 148 cm then: combination of band 100 with band 52	100	15 th	52	1 st	136 cm
	100	16 th	52	1 st	142 cm
	100	17 th	52	1 st	148 cm
	100	10 th	100	1 st	154 cm
from 154 to 196 cm then: combination of band 100 with band 100	100	11 th	100	1 st	160 cm
	100	12 th	100	1 st	166 cm
	100	13 th	100	1 st	172 cm
	100	14 th	100	1 st	178 cm
	100	15 th	100	1 st	184 cm
	100	16 th	100	1 st	190 cm
	100	17 th	100	1 st	196 cm

Order of openings to be connected is stated just informatively, so during installation it is clear which opening fits to one another by simple placing the band on top of each other in desired length directly on the protected wall, so when making an order it is sufficient to state just the scale of the length as seen in the first column of this table to make the correct combination of appropriate bands.

TABLE no. 2

Standard protective band for longer lengths

*Combinations of two standard bands are stated in the previous table no. 1
in column b in the first line the max. length 196 cm is from the table no. 1 (last line)*

a	b					f					j					r		
Standard bands in pieces	max. length from previous line					to this length band 28 is adequate					to this length band 52 is adequate					Maximum length achieved		
3	196	202	208	214	220	226	232	238	244	250	256	262	268	274	280	286	292	cm
